**From:** Ohio Chamber of Commerce  
**Sent:** Wednesday, June 20, 2018 9:05 AM  
**To:** Rep76  
**Subject:** Key Vote Alert - HB 494

 **OHIO CHAMBER  
of COMMERCE** **KEY VOTE ALERT**

**TO:** Members of the Ohio House of Representatives

**FROM:** Don Boyd, Director, Labor and Legal Affairs

**RE:** Upcoming Floor Vote on House Bill 494

**DATE:** June 20, 2018

House Bill 494 would further clarify that the employees of a franchisee will not be considered employees of a franchisor for the purposes of Ohio Minimum Fair Wage Standards, Workers' Compensation, Unemployment Compensation, or Income Tax laws. This legislation is, in part, due to the National Labor Relations Board (NLRB) decision in *Browning-Ferris Industries*, 362 NLRB No. 186 (2015), which upended 30 years of precedent and established an unworkable joint-employer standard that could have a devastating impact on the franchise business model. In *Browning-Ferris* the 2015 NLRB ruled that employers could be deemed joint employers simply by reserving control or exerting indirect control over the same workers. This eliminated the previously long-standing requirement that an employer **actually** exercise control rather than simply having a contractual right to do so. The board in the case also threw out the precedent that an employer must exercise direct, immediate, and not limited and routine control over an employee ruling that indirect control, such as through an intermediary, was sufficient to establish joint employment.

Thus, under the *Browning-Ferris* decision, simply having a contractual right to control could create joint-employment between two separate businesses. This is especially problematic for businesses utilizing the franchise model because both parties to the relationship could be deemed joint employers for purposes of unionization, collective bargaining, and defense of unfair labor practice allegations. If this interpretation is adopted in other areas, such as those state laws clarified by HB 494, it could threaten the autonomy of franchisees to act as independent business owners. Further, franchisors could face unfettered liability for the HR and other decisions of franchisees even when they do not exercise control over daily operations or employment decisions.

While state law cannot overturn the NLRB decision, HB 494 will prevent state agencies and regulators from extending the *Browning-Ferris* joint-employer standard when interpreting

state laws here in Ohio. The legislation clarifies that the employees of a franchisee will not be considered the employees of a franchisor unless the franchisor expressly assumes that role in writing. HB 494 simply codifies what the parties to franchise agreements always knew the law to be.

**The Ohio Chamber of Commerce strongly supports HB 494 because we believe this legislation improves Ohio's legal climate while bringing stability and predictability to this area of the law.**

We urge you to vote yes to HB 494. **Please be aware that the vote on HB 494 will be reflected in the Ohio Chamber's General Assembly Voting Record.** If you have any questions about this bill or the Ohio Chamber's position, please contact me at (614) 228-4201 or [dboyd@ohiochamber.com](mailto:dboyd@ohiochamber.com).

Subject: Pass HB 211 - Home Inspector Licensing Now

Dear Representative LaTourette,

As a REALTOR, and member of the Ohio REALTORS, I am asking for your support to bring House Bill 211 - our top legislative priority for 2018 - to the floor for a vote. House Bill 211 has passed the House Economic Development Commerce and Labor Committee by a 12-2 margin and should be brought up for a vote. House Bill 211 proposes much-needed consumer protections in the home buying process.

Home inspection remains one of the last unregulated acts in the home buying process. The inspection report often serves as the final say in what is undoubtedly the largest financial investment a consumer will make in their lifetime. House Bill 211 simply establishes basic, common-sense standards for education and licensing of inspectors. More importantly, it provides multiple avenues for existing inspectors to continue their business operations.

We are hopeful that with your support, House Bill 211 can be placed on this week's calendar for a vote. Your vote in support of this bill will ensure that when a consumer hires a home inspector, the inspection is being done by a qualified inspector with the knowledge and background to provide a quality inspection report. House Bill 211 is supported by both REALTORS and the Ohio Chapter, Southern Ohio Chapter and the North Central Ohio Chapter of the American Society of Home Inspectors members.

We ask for your SUPPORT of House Bill 211.

Sincerely,

Nancy Di Franco  
9969 Mulberry Rd

Subject: Pass HB 211 - Home Inspector Licensing Now

Dear Representative LaTourette,

As a REALTOR, and member of the Ohio REALTORS, I am asking for your support to bring House Bill 211 - our top legislative priority for 2018 - to the floor for a vote. House Bill 211 has passed the House Economic Development Commerce and Labor Committee by a 12-2 margin and should be brought up for a vote. House Bill 211 proposes much-needed consumer protections in the home buying process.

Home inspection remains one of the last unregulated acts in the home buying process. The inspection report often serves as the final say in what is undoubtedly the largest financial investment a consumer will make in their lifetime. House Bill 211 simply establishes basic, common-sense standards for education and licensing of inspectors. More importantly, it provides multiple avenues for existing inspectors to continue their business operations.

We are hopeful that with your support, House Bill 211 can be placed on this week's calendar for a vote. Your vote in support of this bill will ensure that when a consumer hires a home inspector, the inspection is being done by a qualified inspector with the knowledge and background to provide a quality inspection report. House Bill 211 is supported by both REALTORS and the Ohio Chapter, Southern Ohio Chapter and the North Central Ohio Chapter of the American Society of Home Inspectors members.

We ask for your SUPPORT of House Bill 211.

Sincerely,

Mary Beth O'Neill  
11020 Burlington Ridge Dr

**Subject:** HB 504 Interior Design Legislation/Whip Count

**To:** House GOP Caucus Members  
**From:** Representative Dorothy Pelanda  
**RE:** House Bill 504 – Interior Design Legislation/Whip Count  
**Date:** June 22, 2018

**I write to you today to encourage your affirmative vote on House Bill 504, which recently passed the House Economic Development, Commerce and Labor Committee by a broad, bipartisan vote of 10-1 (Dean).**

HB 504 establishes the permissive certification of Ohio's educated and qualified commercial interior design professionals. The intent of the legislation is to allow these professionals to practice and pursue their professional goals to their fullest capabilities while protecting the public, retaining talent, and increasing job creation in the State of Ohio.

In order to practice interior design in Ohio, an individual typically obtains a degree from a recognized Interior Design program from a Council of Interior Design Accreditation (CIDA) University. There are 6 CIDA schools in Ohio: The Ohio State University, Kent State University, Miami University, Ohio University, University of Akron, and the University of Cincinnati. These individuals must also record 3,520 hours of work experience with a National Council for Interior Design Qualification (NCIDQ) Certified Professional, or a Licensed Design Professional as direct supervisor, to be eligible to take and successfully pass the NCIDQ examination (National and International Standard). Commercial interior design professionals apply their knowledge and principles of Ohio's existing laws, regulations, and extensive building codes across the state in the design of public spaces, which includes, but are not limited, to the Americans' with Disabilities Act (ADA), health compliance, Fire-Life Safety, Ingress/Egress, WELL AP, and LEED certification.

Commercial interior design was primarily developed in the post war era and now interior designers are suffering the unintended consequences of an older, overly broad, undefined, and under-inclusive state statute. In Ohio, interior design professionals are not free to practice to their fullest capabilities which dramatically impacts their ability to compete in the marketplace. This has put many professionals and interior design firms, the majority are sole proprietorships owned by women, at a distinct disadvantage by operating in the state of Ohio. While many interior design professionals enjoy great working relationships

with the architectural firms they work with, there are many who own their own businesses and Ohio's current environment makes it difficult to compete with these restrictions. The intent of the legislation would be to allow those professionals, who choose to obtain certification, the ability to submit their own drawings and documents to obtain approval for their clients' projects.

Many interior design graduates choose to leave the State of Ohio and pursue their profession to their fullest educational capabilities in other states that have recognized interior design laws. The legislation will not only create a long-term solution for job growth and retention, but it will define a profession that will align the state with the Federal model of the Government Service Administration (GSA) , allowing them to bid on federal contracts.

Specifically, HB 504 will:

- Establish a permissive certification of Ohio's commercial interior design professionals through the Ohio Interior Design Examiners Board, a subsidiary board of the Ohio Architects Board. A certified interior design professional will have the ability to submit their own documents for permitting purposes.
- Limit the measure to only include work performed on buildings to be used for (non-residential) business, mercantile occupancy, or public spaces governed under the non-residential building code.
- Generates small business growth and increases state revenue by retaining and growing employment in our state.
- Enhances the future of the students in Ohio's six accredited CIDA institutions. Entices recent graduates to remain in Ohio to utilize their skills and put their degree to use.
- Creates more competition and decreases prices by offering alternatives. Cost savings for the client, the public, and the professional.
- Creates more efficiency. Provides for a more streamlined process for code examiners who can work directly with the professional who prepared the work which in turn saves time and money in having to have plans approved by other entities.

**Here are specific items that HB 504 does not do:**

- House Bill 504 does not require an interior designer to become certified, nor does it put non-certified interior designers out of business.
- The bill does not impact residential interior or kitchen and bath designers as it only applies to the "Nonresidential Building Code".
- The bill does not infringe on the duty, or practice act of any other profession. In fact, there are specific statutory prohibitions against the unauthorized practice of architecture and engineering.

*I want to emphasize that HB 504 is not mandatory, does not create a license, specifically lists 9 areas that are not the "practice of interior design" and does not allow interior design professionals to engage in the practice of architecture in any way.*

*HB 504 has been co-sponsored by: Representatives Patton, Slaby, Roegner, Carfagna, Reineke, Lang, Rezabek. Republican members supporting HB 504 in committee were: Representatives Arndt, Landis, Lipps, Vice-Chair Riedel, Stein, and Chairman Young.*

**Organizations supporting HB 504 are** The Ohio State University College of Design, Associated Builders and Contractors of Ohio, International Interior Design Association, American Society of Interior Designers, National Association of Women Business Owners (NAWBO)-Columbus Chapter, Ohio Restaurant Association and NBBJ.

**I will be reaching out to Members directly over the weekend to conduct a whip count on the legislation and I look forward to speaking with you and addressing any questions that you may have. Thank you.**

**From:** Erika Cybulskis  
**Sent:** Friday, June 22, 2018 4:40 PM  
**To:** Rep76  
**Subject:** Please Oppose HB 367

Dear Representative LaTourette,

I am writing to respectfully urge you to oppose passage of House Bill 367, legislation that, if enacted, would retroactively rewrite the terms of dental insurance contracts.

H.B. 367 would eliminate the ability for dental plans to provide an important consumer cost protection measure for their customers and enrollees, and would directly result in increased costs for dental care for Ohioans.

Passage of this legislation may result in fewer employers offering dental plans to their employees, and may also lead to an increase in the number of Ohioans who forgo necessary and important dental treatment due to the higher expense.

Of equal importance, passage of this legislation would constitute unwarranted interference by state government to amend the terms of a private business contract entered into voluntarily by dentists and dental plans. Such legislative intervention would be a dramatic change for Ohio, which has historically respected business agreements reached by private parties.

For these reasons, Delta Dental of Ohio and numerous other parties strongly oppose this bill. The wide coalition of opponents includes the Ohio Chamber of Commerce, Ohio Association of Health Plans, America's Health Insurance Plans, the National Association of Dental Plans, Westfield, and Ohio's major unions, including the Union Benefits Trust (OCSEA) and the Ohio Education Association.

The sole proponent of the bill, the ODA, supports this legislation because it would permit dentists to increase charges for services provided to their insured patients beyond the maximum fee schedule required by a dental plan's contract.

Despite the ODA's various assertions, they have not provided any actual evidence of hardship caused by this common contract provision.

A non-covered dental services policy means that a dentist under contract with a dental plan agrees to apply the same maximum fee schedule for all services provided to a patient insured by the plan, regardless of whether the dental plan pays the fee, the patient pays the fee, or the plan and patient each pay a portion of the fee.

In other words, the dentist gets paid the same regardless of whether a service is covered or non-covered - the only difference is whether the patient pays out of pocket (if the particular service is not a reimbursable service under the patient's plan) as opposed to the dentist being paid the same amount by the dental plan (if the particular service is subject to reimbursement by the plan.) Thus, there is only a "discount" if the dentist's charge for the service is more than the maximum allowed under the fee schedule, and any such "discount" applies to both covered and non-covered services.

Asking for legislative intervention to retroactively amend the terms of a private contract is not an appropriate remedy - if dentists who willingly sign on as participating providers truly feel that a contract is unfair or that they do not like the terms of their agreement with a dental plan, they are free to terminate the agreement at any time.

In fact, the dentists' ability to terminate their contracts gives them the ultimate bargaining leverage in this contractual relationship. Dental plans need a strong network of dentists in order for their plans to be successful, especially in a state like Ohio where less than half (48%) of residents have private dental insurance.

Dentists can still provide services to patients without participating with dental plans, but dental plans cannot offer their product to customers if dentists do not willingly sign on as participating providers in their networks. Thus, Delta Dental and other dental plans must always conscientiously strive to strike a fair balance between providing reasonable cost protections for their customers and enrollees while at the same providing fair and beneficial compensation to participating dentists for their services.

Ohio has a robust and competitive dental insurance market and dentists have many options - a recent survey of dental insurers by the National Association of Dental Plans showed 59 different plan types offered in Ohio. Dental plans strive to provide competitive offerings to businesses and patients seeking private insurance, while at the same maintaining healthy participation by dentists in their networks.

Delta Dental of Ohio is proud of its good relationship with its participating dentists. Since Delta Dental implemented its non-covered services policy ten years ago, dentists' participation in Delta Dental's networks has actually steadily increased, and, according to a recent survey of participating dentists, Ohio dentists gave Delta Dental an overall 83.8% satisfaction rating.

While the two sides of a business agreement are rarely thrilled about every individual term of the contract, this affirmation provides solid indication that our participating dentists are being compensated fairly for their services and are receiving a satisfactory benefit of the bargain.

The bottom line is that H.B. 367 is bad policy and is truly a "solution in search of a problem." It would set a terrible precedent to encourage sophisticated private business groups to seek

protectionist legislation rather than work through the legal framework established by a governing contract.

H.B. 367, if enacted, will directly result in increased out-of-pocket costs for dental care for Ohioans. The dentists' gains will come at the expense of the patients who will have to figure out how to pay more or decide that they will forego care due to the higher cost of care.

According to the Health Policy Institute of Ohio's most recent Health Value Dashboard, Ohio ranks 38th in poor oral health and the trend for this metric is indicated as "moderately worsened." The last thing we need in Ohio is legislation that will dilute the coverage available under dental plans and increase the costs of care for insured Ohioans.

For the foregoing reasons, Delta Dental of Ohio respectfully requests that you oppose the passage of H.B. 367.

If you would like to discuss this issue further or if I can be of assistance in providing additional information regarding our position with respect to this legislation, please let me know. Thank you for your consideration.

Sincerely,

Erika Cybulskis

**From:** Therese Vogel  
**Sent:** Sunday, June 24, 2018 3:25 PM  
**To:** Rep76  
**Subject:** HB 189

The sponsors and supporters of Substitute House Bill 189 assert this bill will reduce student loan debt and help more Ohioans compete for quality jobs leading to career advancement. They would also have you believe there is wide consensus in the industry that supports the drastic reduction in education for a cosmetology license.

Substitute House Bill 189 is driven by a few powerful players in the industry for their exclusive professional benefit. Dramatically lowering the hours for cosmetology licensure is agreeable to the business models of large salons that have extensive training programs, accompanied by restrictive non-compete clauses. National chain salons with low retention rates need to hire large numbers of minimally trained cosmetologists at low wages, in order to maximize profits.

Meanwhile, small independent salons, largely female owned, that comprise nearly two-thirds of Ohio's salons, are not in a financial position to bear the burden of increased on-the-job training that would be required if education is reduced.

Ohio already offers a license for "hair design" requiring only 1,200 hours.

Forty-six states require at least 1,500 hours. Reduction in education will negatively impact the portability of an Ohio license, drastically limiting employment in other states for Ohio's cosmetologists.

The education reduction proposed in Substitute HB 189 would be below all our surrounding states. Ohio's contiguous states, Kentucky, Michigan, and Indiana have 1,500 hour requirements, West Virginia requires 1,800 and Pennsylvania requires 1,250.

According to a study conducted in August, 2016 by the American Institutes for Research, Ohio's licensed cosmetology graduates enjoyed higher employment rates than their counterparts in New York and Massachusetts, states with 1,000 hour requirements.

This is based on data collected by the Bureau of Labor Statistics in May, 2015. This study also revealed that the average student loan debt for a cosmetology student in

Ohio is only \$1,074 and \$1,358 more than New York and Massachusetts, respectively. Contrary to proponent and sponsor testimony, reduced curriculum hours do not substantially lower the cost of student loan debt.

The Texas legislature recently rejected a similar proposal to Substitute HB 189. In Idaho, the governor refused to sign a similar bill.

Pivot Point International and Milady, the leading curriculum providers in the industry, do not support curriculum reduction, noting research for a 1,000 requirement is “flawed and lacking in critical information... doesn’t take into account important factors such as career longevity”.

We were not consulted prior to the introduction of Substitute HB 189 and not invited to the subsequent interested party meetings. We met Representative Roegner at the end of November to discuss her bill. We are therefore extremely disappointed once more that we were not even informed of the changes being sought prior to the sudden introduction of the substitute bill in a hearing to which notice was provided barely 24 hours in advance.

We request that legislators vote against Substitute House Bill 189 and take a stand against big business seeking to manipulate Ohio law for their benefit, to the detriment of Ohio licensees and small independent salons, largely female owned.

Dear Representative,

The sponsors and supporters of Substitute House Bill 189 assert this bill will reduce student loan debt and help more Ohioans compete for quality jobs leading to career advancement. They would also have you believe there is wide consensus in the industry that supports the drastic reduction in education for a cosmetology license.

Substitute House Bill 189 is driven by a few powerful players in the industry for their exclusive professional benefit. Dramatically lowering the hours for cosmetology licensure is agreeable to the business models of large salons that have extensive training programs, accompanied by restrictive non-compete clauses. National chain salons with low retention rates need to hire large numbers of minimally trained cosmetologists at low wages, in order to maximize profits.

Meanwhile, small independent salons, largely female owned, that comprise nearly two-thirds of Ohio's salons, are not in a financial position to bear the burden of increased on-the-job training that would be required if education is reduced.

Ohio already offers a license for "hair design" requiring only 1,200 hours.

Forty-six states require at least 1,500 hours. Reduction in education will negatively impact the portability of an Ohio license, drastically limiting employment in other states for Ohio's cosmetologists.

The education reduction proposed in Substitute HB 189 would be below all our surrounding states. Ohio's contiguous states, Kentucky, Michigan, and Indiana have 1,500 hour requirements, West Virginia requires 1,800 and Pennsylvania requires 1,250.

According to a study conducted in August, 2016 by the American Institutes for Research, Ohio's licensed cosmetology graduates enjoyed higher employment rates than their counterparts in New York and Massachusetts, states with 1,000 hour requirements.

This is based on data collected by the Bureau of Labor Statistics in May, 2015. This study also revealed that the average student loan debt for a cosmetology student in Ohio is only \$1,074 and \$1,358 more than New York and Massachusetts, respectively. Contrary to proponent and sponsor testimony, reduced curriculum hours do not substantially lower the cost of student loan debt.

The Texas legislature recently rejected a similar proposal to Substitute HB 189. In Idaho, the governor refused to sign a similar bill.

Pivot Point International and Milady, the leading curriculum providers in the industry, do not support curriculum reduction, noting research for a 1,000 requirement is "flawed and lacking in critical information... doesn't take into account important factors such as career longevity".

We were not consulted prior to the introduction of Substitute HB 189 and not invited to the subsequent interested party meetings. We met Representative Roegner at the end of November to discuss her bill. We are therefore extremely disappointed once more that we were not even informed of the changes being sought prior to the sudden introduction of the substitute bill in a hearing to which notice was provided barely 24 hours in advance.

We request that legislators vote against Substitute House Bill 189 and take a stand against big business seeking to manipulate Ohio law for their benefit, to the detriment of Ohio licensees and small independent salons, largely female owned.

Regards,

Darlene Weimer

## Surprise Budget Surplus & Capital Appropriation Spending

Twelve months ago, the outlook on Ohio's budget looked bleak. Significant spending cuts were required to meet the state's constitutionally mandated balanced budget. But barely a year later, the outlook has changed. The Office of Budget and Management puts Ohio \$200 million below its projected year-to-date spending and tax receipts have been better than expected too. As a result, the state will be able to sock away a significant

chunk of change into Ohio's Rainy Day Fund at the end of June. Additionally, with the new fiscal year beginning July 1, new capital projects will get underway. A few of the big ticket items contained within the Capital Budget provide the Department of Higher Education and various state colleges and universities with over \$483 million for capital projects, and more than \$234 million will support projects within the Ohio Department of Natural Resources.

**INSIGHT**

Sound fiscal management by the Kasich Administration, coupled with a strong national economy and much higher than expected income tax filings in April, has allowed these good fiscal fortunes.

---

## JobsOhio Report Beaming; Much More Work to Be Done

A new report by McKinsey & Company examines the performance and impact of JobsOhio. Covering multiple facets of both performance and operation, the report concludes that across all states, JobsOhio is among the top performing Economic Development Organizations. However, the report also highlights areas of weakness for Ohio. For instance, when adjusted for the size of its economy, Ohio ranks 14<sup>th</sup> of 18 regional and competitive peer states in terms of total capital investment. Similarly, Ohio trails its competitive peers and the nation as a whole in other economic indicators: population growth, labor force growth, and unemployment rate.

**INSIGHT**

JobsOhio and many policy changes enacted by the legislature over the past several years (tax cuts, tort reform, regulatory relief, etc.) have helped Ohio's economy move forward. But almost all would agree that we're not moving fast enough. The next governor will need a bold plan to accelerate Ohio's economy.

---

## Megaproject Bill Introduced

The Ohio Senate is considering S.B. 309, a proposal to define “megaprojects” under the state’s economic development program. Among other provisions, the bill would allow up to 100 percent of any appreciation of a megaproject’s real property to be exempted from taxation for up to 30 years, lengthen maximum terms for job creation tax credits, and provide commercial activity tax exemptions to suppliers of megaproject sponsors. To qualify, a “megaproject” operator must either make at least \$1 billion in fixed-asset investments or create \$50 million in new Ohio payroll.

**INSIGHT**

Widely considered a bill designed to help Ohio lure Amazon HQ2, the potential savings of these tax changes would be huge for a qualifying company.

## Traffic Drones Incoming

DriveOhio, ODOT’s autonomous vehicle and smart city research entity, is expected to begin using drones for traffic monitoring in July. The initiative is part of Phase II of the Route 33 Smart Corridor revamp taking place between Dublin and Marysville. The corridor is becoming a nationally recognized testbed for smart mobility and infrastructure research. Vehicles on the ground will complement drones in the air, and information gathered will be relayed back to ODOT’s Traffic Management Center. For more information about DriveOhio and all its initiatives, [click here](#).

## A Bold Prediction

Domino's stock will soar on the wings of its recently launched "Paving for Pizza" marketing campaign. For cash-strapped municipalities, a pizza-for-a-pave may be your ticket to smoothing constituent relations and roadways. Click [here](#) to nominate your town.

**From:** Jenn Lambert  
**Sent:** Monday, June 25, 2018 10:59 AM  
**To:** Jenn Lambert  
**Subject:** Please Vote NO for Substitute House Bill 189

Hello,

I have been working in Cosmetology education for ten years now. I started my career in Cosmetology education as an academic counselor and saw students enter the institute with varying degrees of aptitude for cosmetology. Some students have been watching YouTube tutorials for most of their life and think that they know every hairstyle and color formulation that there is to know. Other students entering have never touched anyone else's hair, but know that they want a career where they can be creative and also support themselves and their families. Most students are somewhere in the middle.

The true beauty of Cosmetology education is that these types of students sit next to each other on the first day of class and both start learning the same material – from square one. This is important because even though the student who has spent countless hours in front of YouTube, memorizing technique after technique, thinks that she is ready to grab a pair of shears and start cutting a bob on day one, she's not. She still needs to learn how to hold her shears in a way that will reduce her chances of getting Carpal Tunnel in five years. She needs to learn how to stand on her feet for up to 12 hours a day without causing varicose veins, back problems and the other health issues that come with a career on your feet. She needs to learn how to open a bank account, create a resume, properly interact with her clients, market herself to attract new clients, deal with difficult clients, use salon management software, clean out sink drains, do laundry (lots and lots of laundry), coexist with people who have different home situations or backgrounds than she does, be punctual, communicate effectively and so much more!

A Cosmetology school's main focus and goal is to education students on the principles of cosmetology and most Cosmetology schools in Ohio do that very well, but there is so much more to teach students, for their safety and their success, before we send them out into the industry and the "real world." By reducing the number of clock hours in Cosmetology schools you are reducing the ability for success after graduation.

The sponsors and supporters of Substitute House Bill 189 assert this bill will reduce student loan debt and help more Ohioans compete for quality jobs leading to career advancement. They would also like you to believe that there is wide consensus in the industry that supports the drastic reduction in education for a cosmetology license.

Substitute House Bill 189 is driven by a few powerful players in the industry and is designed exclusively for their professional benefit. Dramatically lowering the hours for cosmetology licensure is agreeable to the business models of large salons that have extensive training programs, accompanied by restrictive non-compete clauses. National chain salons with low retention rates need to hire large numbers of minimally trained cosmetologists at low wages, in order to maximize profits. Meanwhile, small independent salons, largely female owned, that comprise nearly two-thirds of Ohio's salons, are not in a financial position to bear the burden of increased on-the-job training that would be required if education is reduced.

Ohio already offers a license for "hair design" requiring only 1,200 hours.

Forty-six states require at least 1,500 hours. Reduction in education will negatively impact the portability of an Ohio Cosmetology license, drastically limiting employment in other states for Ohio's cosmetologists. The reduction of hours proposed in Substitute HB 189 would be well below all of our neighboring states. Ohio's contiguous states, Kentucky, Michigan, and Indiana have 1,500 hour requirements, West Virginia requires 1,800 and Pennsylvania requires 1,250.

According to a study conducted in August, 2016 by the American Institutes for Research, Ohio's licensed cosmetology graduates enjoyed higher employment rates than their counterparts in New York and Massachusetts, states with 1,000 hour requirements. This is based on data collected by the Bureau of Labor Statistics in May, 2015. This study also revealed that the average student loan debt for a cosmetology student in Ohio is only \$1,074 and \$1,358 more than New York and Massachusetts, respectively. Contrary to proponent and sponsor testimony, reduced curriculum hours do not substantially lower the cost of student loan debt.

The Texas legislature recently rejected a similar proposal to Substitute HB 189. In Idaho, the governor refused to sign a similar bill.

Pivot Point International and Milady, the leading curriculum providers in the industry, do not support curriculum reduction, noting research for a 1,000 requirement is "flawed and lacking in critical information... doesn't take into account important factors such as career longevity".

The Cosmetology schools in Ohio were not consulted prior to the introduction of Substitute HB 189 and not invited to the subsequent interested party meetings. We met Representative Roegner at the end of November to discuss her bill and we are extremely disappointed that we were not informed of the changes being sought prior to the sudden introduction of the substitute bill in a hearing to which notice was provided barely 24 hours in advance.

We request that legislators vote against Substitute House Bill 189 and take a stand against big business seeking to manipulate Ohio law for their benefit, to the detriment of Ohio licensees and small independent salons, largely female owned.

Please do not hesitate to contact me if you would like to discuss this further.

Thank you for your service and time,

**Subject:** HB 189 opposition letter

To Whom it May Concern,

The sponsors and supporters of Substitute House Bill 189 assert this bill will reduce student loan debt and help more Ohioans compete for quality jobs leading to career advancement. They would also have you believe there is wide consensus in the industry that supports the drastic reduction in education for a cosmetology license.

Substitute House Bill 189 is driven by a few powerful players in the industry for their exclusive professional benefit. Dramatically lowering the hours for cosmetology licensure is agreeable to the business models of large salons that have extensive training programs, accompanied by restrictive non-compete clauses. National chain salons with low retention rates need to hire large numbers of minimally trained cosmetologists at low wages, in order to maximize profits.

Meanwhile, small independent salons, largely female owned, that comprise nearly two-thirds of Ohio's salons, are not in a financial position to bear the burden of increased on-the-job training that would be required if education is reduced.

Ohio already offers a license for "hair design" requiring only 1,200 hours.

Forty-six states require at least 1,500 hours. Reduction in education will negatively impact the portability of an Ohio license, drastically limiting employment in other states for Ohio's cosmetologists.

The education reduction proposed in Substitute HB 189 would be below all our surrounding states. Ohio's contiguous states, Kentucky, Michigan, and Indiana have 1,500 hour requirements, West Virginia requires 1,800 and Pennsylvania requires 1,250.

According to a study conducted in August, 2016 by the American Institutes for Research, Ohio's licensed cosmetology graduates enjoyed higher employment rates than their counterparts in New York and Massachusetts, states with 1,000 hour requirements.

This is based on data collected by the Bureau of Labor Statistics in May, 2015. This study also revealed that the average student loan debt for a cosmetology student in Ohio is only \$1,074 and \$1,358 more than New York and Massachusetts, respectively. Contrary to proponent and sponsor testimony, reduced curriculum hours do not substantially lower the cost of student loan debt.

The Texas legislature recently rejected a similar proposal to Substitute HB 189. In Idaho, the governor refused to sign a similar bill.

Pivot Point International and Milady, the leading curriculum providers in the industry, do not support curriculum reduction, noting research for a 1,000 requirement is "flawed and lacking in critical information... doesn't take into account important factors such as career longevity".

We were not consulted prior to the introduction of Substitute HB 189 and not invited to the subsequent interested party meetings. We met Representative Roegner at the end of November to discuss her bill. We are therefore extremely disappointed once more that we were not even informed of the changes being sought prior to the sudden introduction of the substitute bill in a hearing to which notice was provided barely 24 hours in advance.

We request that legislators vote against Substitute House Bill 189 and take a stand against big business seeking to manipulate Ohio law for their benefit, to the detriment of Ohio licensees and small independent salons, largely female owned.

Partnerships

## **OWIG Luncheon**

**Navigating Harassment and Forming and Cultivating  
Strategy Partnerships**

**Friday, July 13 | 11:30 a.m.-1:00 p.m.  
Bricker and Eckler, 100 S. Third St. Columbus, Ohio**

Ohio Women in Government is excited to offer an exclusive luncheon workshop, where members can develop abilities to manage harassment in the workplace. This workshop will go beyond standard HR department trainings and help members harness the necessary soft skills for navigating intense situations.

OWIG is very fortunate to have Marilyn McClure-Demers, VP & Associate General Counsel at Nationwide Insurance, and Lisa Kathumbi, Partner at Bricker & Eckler conducting the workshop.

These incredibly accomplished women are passionate about bringing women together in a safe space to talk about harassment. Marilyn and Lisa will lead a situational-based discussion that will be casual and comfortable, and aims to be relevant for the daily lives of our members. The workshop will be a closed door session, where women will be allowed to speak freely about the experiences of women in government.

OWIG hopes that attendees will walk away with new tools for working through harassment and an awakened strength to form strategy partnerships in the workplace.

**The luncheon will begin promptly at 11:30 a.m.  
Seating is very limited. Please reserve your spot ASAP.  
The cost of the luncheon is \$5 for OWIG members.**

**Prospective members can pay dues and register for the luncheon at the link below.  
Please register by Monday, July 9.**

**Click Here to Register**

**Marilyn McClure-Demers,**  
Vice President, Associate  
General Counsel,  
Nationwide Insurance

Marilyn McClure-Demers currently serves as Vice President and Associate General Counsel at Nationwide in the Office of the Chief Legal Officer at Nationwide. In this role, she leads the teams responsible for managing and directing strategy for all Corporate/Intellectual Property and financial services litigation and Discovery Management for the

**Lisa Kathumbi,**  
Partner,  
Bricker & Eckler LLP

Lisa M. Kathumbi is an experienced employment law advisor, litigator and trainer. She represents companies and executives in a wide range of labor and employment matters, including discrimination and harassment, leave and accommodation, covenants-not-to-compete, breach of contract, wrongful termination in violation of public policy and alleged violations of the Employee Retirement Income Security Act (ERISA). In addition to her litigation practice, Lisa serves as a strategy partner, helping clients achieve their business goals while minimizing legal risks and routinely training and advising companies regarding day-to-day employment issues.

enterprise. She also personally represents Nationwide in matters pertaining to the areas for which she is responsible including regulatory or agency matters. Marilyn has previously led teams which managed both Property and Casualty extra-contractual litigation and P&C Class action litigation. She also served on the law department's Diversity and Inclusion Council.

Marilyn is a Fellow of the American Bar Foundation and a past Fellow of the Leadership Council for Legal Diversity and sits on its Alumni Executive Council. Marilyn is a past recipient of the Hispanic National Bar Association Region X President's Award and the Ohio Diversity Conference Diversity First Award. She is a community steward and served as Chair and Founder of the Women's Leadership Network (WLN) for Delaware County, is Past President of the Ohio Women's Bar Association (OWBA), and served as Board Chair of the United Way of Delaware County, Ohio.

An active member of the Columbus community, Lisa has served on the editorial board for *Better Lawyers*, a publication of the Columbus Bar Association, as a founding board member of Ruling Our Experiences (ROX), and on the boards of the John Mercer Langston Bar Association (JMLBA), City Year Columbus and the American Red Cross of Greater Columbus. Lisa is immediate past president of the Ohio Women's Bar Association (OWBA) and was the first African-American president in the 900-member organization's 26-year history.

**Summer Networking--Save the Date!**

After a very successful networking event on June 14, planning is underway for another networking event in August.

Mark your calendar for Thursday, August 16. The event will be from 5:00 p.m.-7:00 p.m. Location and other details TBA.

## Ohio Women in Government

Ohio Women in Government is a 501(c)(3) organization that understands the importance of developing the professional talents of its members and promoting more women to positions of leadership.

The purpose of OWIG is to be a non-partisan organization giving women working in, interested in, or affected by public policy the opportunity to network, discuss political/policy issues, and experience speakers and related topics.

Through luncheons featuring guest speakers, informational lunches, after-hours networking receptions, and other OWIG sponsored events, members are guaranteed in-depth policy analysis on key issues as well as opportunities to meet professional women working in and with all levels of government.

Subject: Pass HB 211 - Home Inspector Licensing Now

Dear Representative LaTourette,

As a REALTOR, and member of the Ohio REALTORS, I am asking for your support to bring House Bill 211 - our top legislative priority for 2018 - to the floor for a vote. House Bill 211 has passed the House Economic Development Commerce and Labor Committee by a 12-2 margin and should be brought up for a vote. House Bill 211 proposes much-needed consumer protections in the home buying process.

Home inspection remains one of the last unregulated acts in the home buying process. The inspection report often serves as the final say in what is undoubtedly the largest financial investment a consumer will make in their lifetime. House Bill 211 simply establishes basic, common-sense standards for education and licensing of inspectors. More importantly, it provides multiple avenues for existing inspectors to continue their business operations.

We are hopeful that with your support, House Bill 211 can be placed on this week's calendar for a vote. Your vote in support of this bill will ensure that when a consumer hires a home inspector, the inspection is being done by a qualified inspector with the knowledge and background to provide a quality inspection report. House Bill 211 is supported by both REALTORS and the Ohio Chapter, Southern Ohio Chapter and the North Central Ohio Chapter of the American Society of Home Inspectors members.

We ask for your SUPPORT of House Bill 211.

Sincerely,

Richard Piraino

**Subject:** RE: Pass HB 211 - Home Inspector Licensing Now

Dear Victoria,

Thank you for contacting me to voice your support of House Bill 211. I look forward to favorable consideration of this legislation on the House Floor.

If you'd like to read the bill and associated documents, please visit the following link:  
<https://www.legislature.ohio.gov/legislation/legislation-summary?id=GA132-HB-211>

Please do not hesitate to reach out to me with any future state legislative questions or concerns.

Sincerely,

Sarah LaTourette  
State Representative  
Ohio House District 76

Subject: Pass HB 211 - Home Inspector Licensing Now

Dear Representative LaTourette,

As a REALTOR, and member of the Ohio REALTORS, I am asking for your support to bring House Bill 211 - our top legislative priority for 2018 - to the floor for a vote. House Bill 211 has passed the House Economic Development Commerce and Labor Committee by a 12-2 margin and should be brought up for a vote. House Bill 211 proposes much-needed consumer protections in the home buying process.

Home inspection remains one of the last unregulated acts in the home buying process. The inspection report often serves as the final say in what is undoubtedly the largest financial investment a consumer will make in their lifetime. House Bill 211 simply establishes basic, common-sense standards for education and licensing of inspectors. More importantly, it provides multiple avenues for existing inspectors to continue their business operations.

We are hopeful that with your support, House Bill 211 can be placed on this week's calendar for a vote. Your vote in support of this bill will ensure that when a consumer hires a home inspector, the inspection is being done by a qualified inspector with the knowledge and background to provide a quality inspection report. House Bill 211 is supported by both REALTORS and the Ohio Chapter, Southern Ohio Chapter and the North Central Ohio Chapter of the American Society of Home Inspectors members.

We ask for your SUPPORT of House Bill 211.

Sincerely,

Victoria Pate  
11502 Chapin St  
Chesterland, OH 44026
